The Chairman said that in addition to those present, 25 shareholders were represented by proxies. He proposed that the resolution, passed at an extraordinary general meeting held on the 16th ultimo, for the increase of the capital by the issue of 5,000 new shares of seconded, and the motion was carried un animously. This was all the business.

At the Police Court to-day before Mr Wise, Kwok Tai, coolie, was charged, with others along the public road in a careless manner to the danger of Mr D. Kennedy yesterday. Mr Kennedy said he was driving a pony and trap about 6.30 p.m. yesterday, and on turning the corner of Queen's Road and Garden Road saw the defendant and two others running with a truck. He stopped his trap and drew to the side to avoid the truck, which was going so fast that the men let go and bolted. The truck collided with the pony and trap, outling the pony on one of its legs and breaking the stop of the vehicle. A police constable who arrested the defendant gave corroborative evidence. THE import of the opening sentences of the leading article in last night's issue seems to left Singapore on April 27, and may be have been misapprehended by some. We said that, as there was a danger of a man who is well becoming ill if he is too solicitous about his health, so there was danger of the colony suffering on account of the heated discussions about its condition. Some have derived from this state ment the impression that we wished to throw doubt on the genuineness of the Governor's sickness. Far from that; we were not thinking of the Governor at all, merely stating a general principle. No one who has seen His Excellency during the last few weeks can have any doubt about the serious nature of his health. And is this physical feebleness which makes criticism of his action so painful. We feel confident that if he had been in robust health, if he had not had the susceptibilty of a sick man, there would have been no break in the friendship between him and the unofficial members. But really the Colony cannot stand to have its rights ignored and treated with contempt even by a sick man.

> THE annual gathering at Shek Wan took Among the "others' were a good many thieves and sharpers from Hongkong and General Fong Yu sent a mandatin with a contingent of braves to the place to do police duty, but in spite of this, cases of thieving were more numerous than last year. A large number of women from Hongkong lost earrings, bangles, fingerrings, &c. /Several thieves were arrested, and the mandarin in charge had them punished summarily by cutting off the lobes of their ears and branding their cheeks. Some of those who were treated in this way were men who had been deported from Hongkong. The punishment of the thieves made quite a sensation, and the proceedings did something to gratify the Chinese love of a spectacle. After the ear-elitting and branding operations the prisoners

Fema s monkeys were put into plaster-of-paris jackets, to imitate stays, and a tight bandage put around the waist to imitate a pettiooat band. Several of the monkeys died very quickly, and all showed signs of injuries resulting from the treatment. The British Medical Journal, in treating the subject at some length, proves, that the constriction of the vital organs of the body caused by tight-lacing is contiqually working mischief in the human subject. No. 8822.—MAY 2, 1891 FRAGRANT WATERS' MURMUR That it is semi-officially announced His Excellency the Governor leaves Hongkong in a few days. call together the unofficial members, and in presence of the A. D. C., the A. D. C.'s sword, and the Private Secretary, scolded, appealed to, and threatened them on account of the grave disrespect of which they have (from his point of view) been guilty.

That this irregular and unconstitutional proceeding was a startling revelation to the unofficials, and has greatly ruffled the feelings of the community.

That the knowledge subsequently sequired, that His Excellency had settled the whole question of the Military Contribution, by paying over the money on his own responsibility weeks before the vote was passed, has nonplussed the community.

That the attitude of the Governor through out the solomn farce of this discussion is now clearer than it was. That he had taken up a most gravely huconstitutional position, and he was defending that not the ability or inability of the Colony to pay a fair amount. ITALY AND AMERICA.

London. April 1 .- The American Minister at Rome, Mr A. G. Porter, acting under instructions from his Government, has requested the Government of Italy to exercise patience in connection with the present dispute, indicating the difficulty under which the United States Government State rights of Louisians (of which State New Orleans, the scene of the lynching, is the capital).

The American Press declare that the Marquis di Rudini, the Italian Premier, is indulging in a piece of dramatic diplomacy, countries is felt in America.

The report of the arrest of American rioters repeatedly, many being injured. citizens at Florence proves to be untrue. Five Italians who were charged with being concerned in the murder of Mr. Hennessy, chief of police at New Orleans,

have been released on nominal bail, but it is understood that they will not be brought to trial. London, April 2.-President Harrison has assured the King of Italy that he deeply

deplores the recent abhorrent occurrence at New Orleans, and promises that a full inquiry shall be made into the matter. It is reported that the United States Gu-

vorament will indemnify the families of the men who were lynched. The President considers that it is not

necessary to call Congress together, and believes that any serious difficilty with Italy will be avoided. The Attorney-General of the State of Louisians declares that the Grand Jury a: e inquiring into the cases of lynching, and

nothing else is possible at present. London, April 3.-The persons concerned in the recent lynching of the Sicilian prisoners at New Orleans are, it is stated, willing to submit to an indictment, hoping that this will settle the diplomatic trouble with Italy. They are confident of an,

acouittel.

Mr Blaine, Secretary of State, writing to the Italian Legation, condemns Baron De Fave's haste in leaving Washington, and states that even if the United State Government had jurisdiction over the marderers they would be unable to assure their punishment, as that was a question which a jury must decide. He auggests the payment of an indemnity.

The Marquis di Rudini, Premier of Italy, has informed Mr Secretary Blaine that the diplomatic incident can only be closed when the prosecution of the persons concerned in the lynching has been commenced. London, April 4.—It is feared that there will be a conflict between the Federal

President Harrison considers that the lynching of the prisoners was an offence against both the Federal Government and the State Government, insemueh as it was done in deliance of the treaties under which foreigners are granted protection.

It is reported that the Government at Washington will formally demand of the State Government of Louisiana the arrest of the lynchers, and that they shall be tried an a Federal Court.

There is a general feeling in New Orleans that the State must resist any infringement of its sovereign rights. The leading men concerned in the lynching have expressed their willingness to

Rully, on the understanding that they shall receive merely a nominal sen-

The United States Minister at Bome has promised, on behalf of his Government, to make reparation for the lynching of the Italians, but he requires time to effect a satisfactory arrangement. The Marquis di Rudini is reported to be satisfied with this.

The Italians in the United States are organising vengeance clubs, and 2000 men are now drilling at Mountville. They boast that 20,000 men would be able to capture Pittsburg.

President Harrison will probably ask Congress to pass an enactment making the violation of the provisions of a treaty with a foreign Power a punishable offence. London, April 6 .- Baron de Fave. Italian Minister at Washington, who was

London, April 4.—The Belgian delegates at the Mining Congress demand that a universal strike of miners to enforce the adoption of the eight hour day shall take place in May. The English, German, and a portion of the French delegates oppose this proposal as being premature, and are of opinion that if such a strike were to take place defeat would be certain unless ample funds were provided.

The proceedings at the Congress have been noisy, and at jimes violent scenes have occurred, in consequence of the Anarchists who occupied the gallery persisting in their attempts at intimidation. Loudon, April 6.-The Miners' Con-

gress sitting at Paris have decided that before authorising a universal strike. which has been strongly advocated by the delegates of the Belgian miners, they will request all European Governments to arrange for an international convention, which shall decree the eight-hour system being extended to the miners. The Congress resolved, however, to support the Belgian miners should they go out on strike. Lordon, 14th April, -An open air meeting of spinners who are on strike took place at Bradford to-day. THE CHINESE MAIL (Wah Ter Yat Po.)

THIS paper is now issued every day.

The subscription is fixed at Fire Dollars per annum delivered in Hong-kong, or Eleven Dollars Forty Cents including postage to Coast ports.

It is the first Clause Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found th

amongst whom also are to be found the guarantors and securities necessary to place it on a business and legal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Ispan.—
from Australia, California, Eingapors, Penang, Saigon, and other places frequentied by the Chinese,—consider themselves justified in guaranteeing a large and syst-steresing circulation. The advantages offered to advantages are therefore unjustally great and the foreign community generally will find it to their interest to avail themselves of them.

The field open to a paper of this descrip-tion—conducted by native efforts, but progressive and anti-obstructive in lone. is almost limitless. It on the one hand commands Chinese belief and interest, while on the other it deserves every and that can be given to it by foreigners. Like English journals it contains Editorials, with Local Shipping and Commercial News and Advertisements. Subscription orders for the apove may be sent to
